

# WHAT SHOULD I WEAR & BRING WHALE WATCHING?

## 1. BASE LAYER

A quick drying, thin layer that sits close to your skin.

## 2. MIDDLE LAYER

An insulating layer that can be removed if you get too warm.

## 3. OUTER LAYER

A windproof top layer that will keep you dry.

## ACCESSORIES

Sea-sickness tablets. Some require you to take them 30mins-1hr prior to departure.

Drinking Water

Camera or Phone FULLY CHARGED

Sunglasses

Beanie or Warm Hat

Waterproof/ Ski Jacket Highly Recommended

Stay warm from the Winter ocean chill. Always overdress and then take a layer off if you get too warm aboard the vessel.
